BIG BUG BLITZ

99th Anniversary
of the NPS

The National Park Service turns 99 years old on August 25th! Come visit Coronado National Memorial for this free event and help identify 99 insects in celebration of 99 years of the NPS.

Insects dominate the same environments that support human life. They pollinate our fruits, flowers, and vegetables as well as provide us with products like silk and honey.

All day on August 25th, use your smart phone or camera to photograph insects in the park. Post all photos on Facebook (#BigBugBlitz99th), iNaturalist (project: Big Bug Blitz), or email photos to Jessica1_Garcia @nps.gov.

Then join park rangers and park scientists in the evening from 7:30 pm to 10:00 pm for the free black-lighting event at the visitor center parking lot!

WHEN:

August 25, 2015 (All day, and 7:30 - 10 pm at the visitor center)

WHERE:

Coronado National Memorial
4101 E. Montezuma Canyon Road, Hereford, AZ, 85615

**The collection/harming of insects within the park is prohibited.*
